PLEASE BE PATIENT

The catalog search may take **several minutes or more**, depending on the timespan of the search. **DO NOT** be impatient, stop this search, and start a new search, because **this search will not be stopped**, and the new search will just take longer.

Your browser will notify you when the search has been completed...

Your search parameters are:

- catalog=NCSN
- start_time=1983/05/01,00:00:00
- end_time=1983/06/01,00:00:00
- minimum_latitude=35.9
- maximum_latitude=36.5
- minimum_longitude=-120.6
- maximum_longitude=-119.9
- minimum_magnitude=0.0
- maximum_magnitude=9.0
- minimum_depth=0
- maximum_depth=900
- event_type=E

```
Output has been placed in anonymous ftp.
    host:  quake.geo.berkeley.edu
